

Used Equipment Questionnaire

Equipment that has been previously owned or placed into service is generally eligible for support under EXIM Bank's loan, guarantee and insurance programs, provided certain criteria are met. To be eligible for EXIM Bank support, used equipment, including equipment that has been refurbished in the U.S., must meet the following **eligibility criteria**:

1. To be considered U.S. content, the used equipment must be of original U.S. manufacture, AND, if previously exported, must have been in use in the U.S. for at least one year following return to the U.S. and prior to the proposed re-export.
2. The U.S. costs associated with the refurbishment of the equipment are eligible for EXIM Bank support, provided they meet EXIM Bank's foreign content policy parameters. EXIM Bank can support the lesser of 85 percent of the U.S. Contract Price of the item or 100% of the actual U.S. content of the item provided that the item is shipped from the U.S.
3. If the used equipment is of either original foreign manufacture or original U.S. manufacture, previously exported and has **not been in use in the U.S. for at least one year prior** to its proposed export, then EXIM Bank will treat it as **foreign content** and the following applies:
 - a. If the equipment is to be refurbished, the used equipment procurement cost is considered eligible foreign content provided that this cost is less than 50 percent of the total procurement and refurbishment cost.
 - b. If the foreign content of the used equipment exceeds 50 percent of the cost associated with the procurement and refurbishment of the equipment, then only the U.S. refurbishment portion will be considered eligible for EXIM Bank support.
4. Previously exported goods that benefited from EXIM Bank financing in the past will be considered eligible for EXIM Bank support provided that the original financing has been **paid in full** and that the equipment has been **in use in the U.S. for at least one year**.
5. The **repayment term** that EXIM Bank offers for used and refurbished equipment will be consistent with EXIM Bank's international agreements for repayment terms based on contract value, and shall not exceed the effective remaining useful life of the transaction's scope of supply. EXIM Bank, at its sole discretion, will determine the effective remaining useful life of the scope of supply according to the following:
 - a. The remaining **useful life** of an individual piece of equipment shall reflect the remaining portion of "first life" expected for a similar piece of new equipment. "First life" is defined as the typical expected operating life of a piece of equipment prior to major overhaul milestones or the need for significant refurbishment.
 - b. If the sale **includes** more than one item, including a mixture of new and used items, a **dollar-weighted average** of the individual useful lives of each of the items in the scope of supply will be calculated.
6. Foreign Content for used pieces should be determined by contacting the original manufacturer to ascertain the value on a percentage basis of foreign components contained in the equipment during the manufacturing process. This percentage should be applied to the supplier's purchase price to determine the current value of foreign components. This value should then be adjusted to account for the value of any additional foreign components installed during the refurbishment process.

Application Procedure

Applicants seeking EXIM Bank support for used or refurbished equipment are required to submit a completed **Used Equipment Questionnaire** for **each used item** (see next page). The information presented will be considered in the overall evaluation of the transaction, including EXIM Bank's determination of the appropriate term for the transaction. If you have any questions, please call EXIM Bank's Engineering and Environment Division at (202) 565-3570 or the Business Development Group at (202) 565-3946.

Paperwork Reduction Act Statement: We estimate that it will take you about 15 minutes to complete this form. This includes the time it will take to read the instructions, gather the necessary facts and fill out the form. However, you are not required to provide information requested unless a valid OMB control number is displayed on the form. If you have comments or suggestions regarding the above estimate or ways to simplify this form, forward correspondence to EXIM Bank and the Office of Management and Budget, Paperwork Reduction Project, OMB # 3048-0039 Washington, D.C. 20503.

Used Equipment Questionnaire

OMB 3048-0039
Expires 10-31-2018

Applicant: Buyer: Policy number:

Create a separate questionnaire for each item of used equipment.

(for insurance program)

1. Product Information:

Name and description of used equipment:

Equipment History

Year manufactured: Where is the equipment located?

Hour meter reading: How long has the equipment been there?

Mileage:

Is the product under warranty? YES NO

Term: Description:

Has the equipment been rebuilt/reconditioned? YES NO

By whom? Location: Date:

Does this equipment have an independent mechanical certification, evaluation, or assessment? YES NO

2. Export/Import History

Was the equipment previously exported? YES NO

Did EXIM Bank provide support? YES NO

If yes, details:

Was the equipment imported to the U.S.? YES NO

3. Prices and Costs

Contract price: Foreign content included in the contract price:

U.S. supplier's purchase price: Purchase Date:

Cost of rebuilding/reconditioned: Cost of spare parts included:

Description of rebuilding and/or spare parts:

4. Used Aircraft Only

Have all airworthiness directives been completed? YES NO If no, details:

Number of cycle hours remaining on the airframe and engines: Names of each previous owner and lessee with the

Months remaining before next maintenance "C" and "D" checks: corresponding acquisition dates:

Signature _____

Date _____

Name _____

Title _____
